

# South Carolina

## Procurement Services

[South Carolina Procurement Services](#) provides the State's central procurement operation for all state agencies covered by the South Carolina Consolidated Procurement Code. It is divided into the following operational units:

- **Sourcing Team:** This team is responsible for conducting and managing procurements through a strategic partnership with state agencies to meet their procurement needs.
- **Statewide Contracts Team:** This team is responsible for conducting and managing procurements for Statewide Contracts on any type of acquisition for supplies, services, and information technology other than construction.

### Supply Needs:

South Carolina's procurement needs are as follows in the associated categories:

- **General Procurement Needs**
  - Office supplies and equipment (furniture, copiers, print services)
  - Facilities maintenance and operations (janitorial, HVAC, landscaping)
  - Fleet vehicles, fuel, and maintenance services
  - Professional services (consulting, legal, financial, HR support)
  - Construction and renovation services
  - Temporary staffing and workforce solutions
  - Public safety equipment and uniforms
- **Information Technology (IT) Procurement Needs**
  - IT hardware (desktops, laptops, servers, networking equipment)
  - Software and enterprise licensing (ERP, CRM, productivity tools)
  - Cybersecurity solutions (threat monitoring, compliance, risk management)
  - Cloud services and data hosting
  - IT consulting and systems integration
  - Telecommunications (voice, data, broadband services)
  - Managed IT services and help desk support

Companies interested in working with South Carolina should review and search the Statewide Term Contracts [Home | procurement.sc.gov](https://procurement.sc.gov) to identify current procurement opportunities, existing contract holders, and areas where their products or services may align with current or future state needs.
